	Type of Flushing	Rimless technology

Product Code: AUBTW01

DESCRIPTION

The AUSTEN back to wall pan may have a classic exterior design but it features the modern rimless flush design which has become a popular choice among many homeowners as it makes cleaning easy.

The complete set up with one of our concealed cisterns and flush plates would be perfect if you're wanting to save space in your bathroom but wanting a toilet with a more sophisticated look.

Create a tidy bathroom space and opt for a back to wall pan; you can hide the cistern by having it built into the wall or a WC unit as well as save on floor space.

*Seat sold separately
Standard soft-close seat: AUTS01
Slim soft-close seat: AUTS02

For optimal performance, we recommend pairing back to wall rimless pans with a high-level concealed cistern set at 6/3lt flushing.

See our FLUSHE 2.0 range for compatible WRAS approved concealed cisterns.
