Type of Flushing	Rimless technology
Other Features	Pan & seat in one box

DESCRIPTION

The AIR back to wall rimless pan & seat pack is ultimately modern in both its form and function.

The pan's elegant design will work in a variety of bathroom interiors, whilst the rimless flush adds an even more contemporary look to it and is also simple to clean.

This comes with the slim-line soft closing seat - a modern seat that has a quick release function to remove it from the pan, again making cleaning easy.

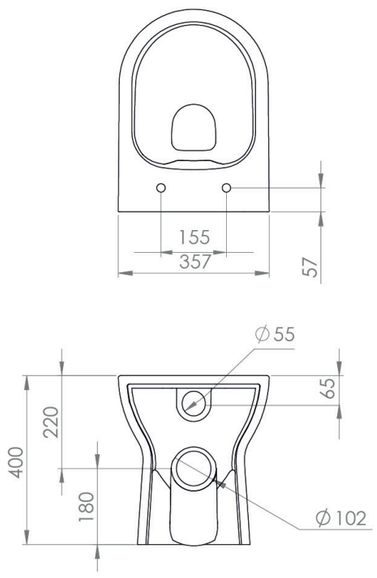

Create a tidy bathroom space and opt for a back to wall pan; you can hide the cistern by having it built into the wall or a WC unit as well as save on floor space.

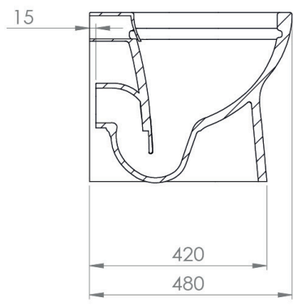

Component parts included:
AIRBTW01 (Pan)
AIR78 (Seat)

For optimal performance, we recommend pairing back to wall rimless pans with a high-level concealed cistern set at 6/3lt flushing.

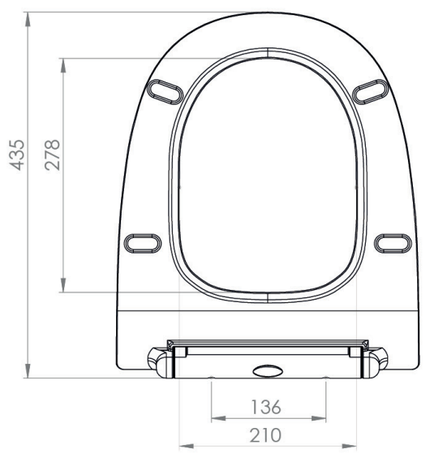

See our FLUSHE 2.0 range for compatible WRAS approved concealed cisterns.
