DESCRIPTION

The COS collection was designed to create brassware that was both modern and classic to suit any style of bathroom.

A COS bottle trap in brushed bronze is the perfect finishing touch to your bathroom. If you're opting for a wall mounted washbasin on its own, a bottle trap will instantly give it a sophisticated look whilst still providing practicality. It can be cut down in height and in projection, so you can make sure it precisely connects with your basin and basin waste.

The brushed bronze finish is PVD, a durable coating to the finish that will continuously look flawless for years to come.
