The COS collection was designed to create brassware that was both modern and classic to suit any style of bathroom.

This COS bath filler with a clicker waste & overflow in brushed bronze is a great option for your built-in bath as it combines a filler, waste and overflow in just one product. The brushed nickel finish is in fact a PVD coating, which will help to make the brassware look flawless for years to come.

Pair it with one of our built-in baths and a COS concealed thermostatic shower valve to operate it.
