## DESCRIPTION

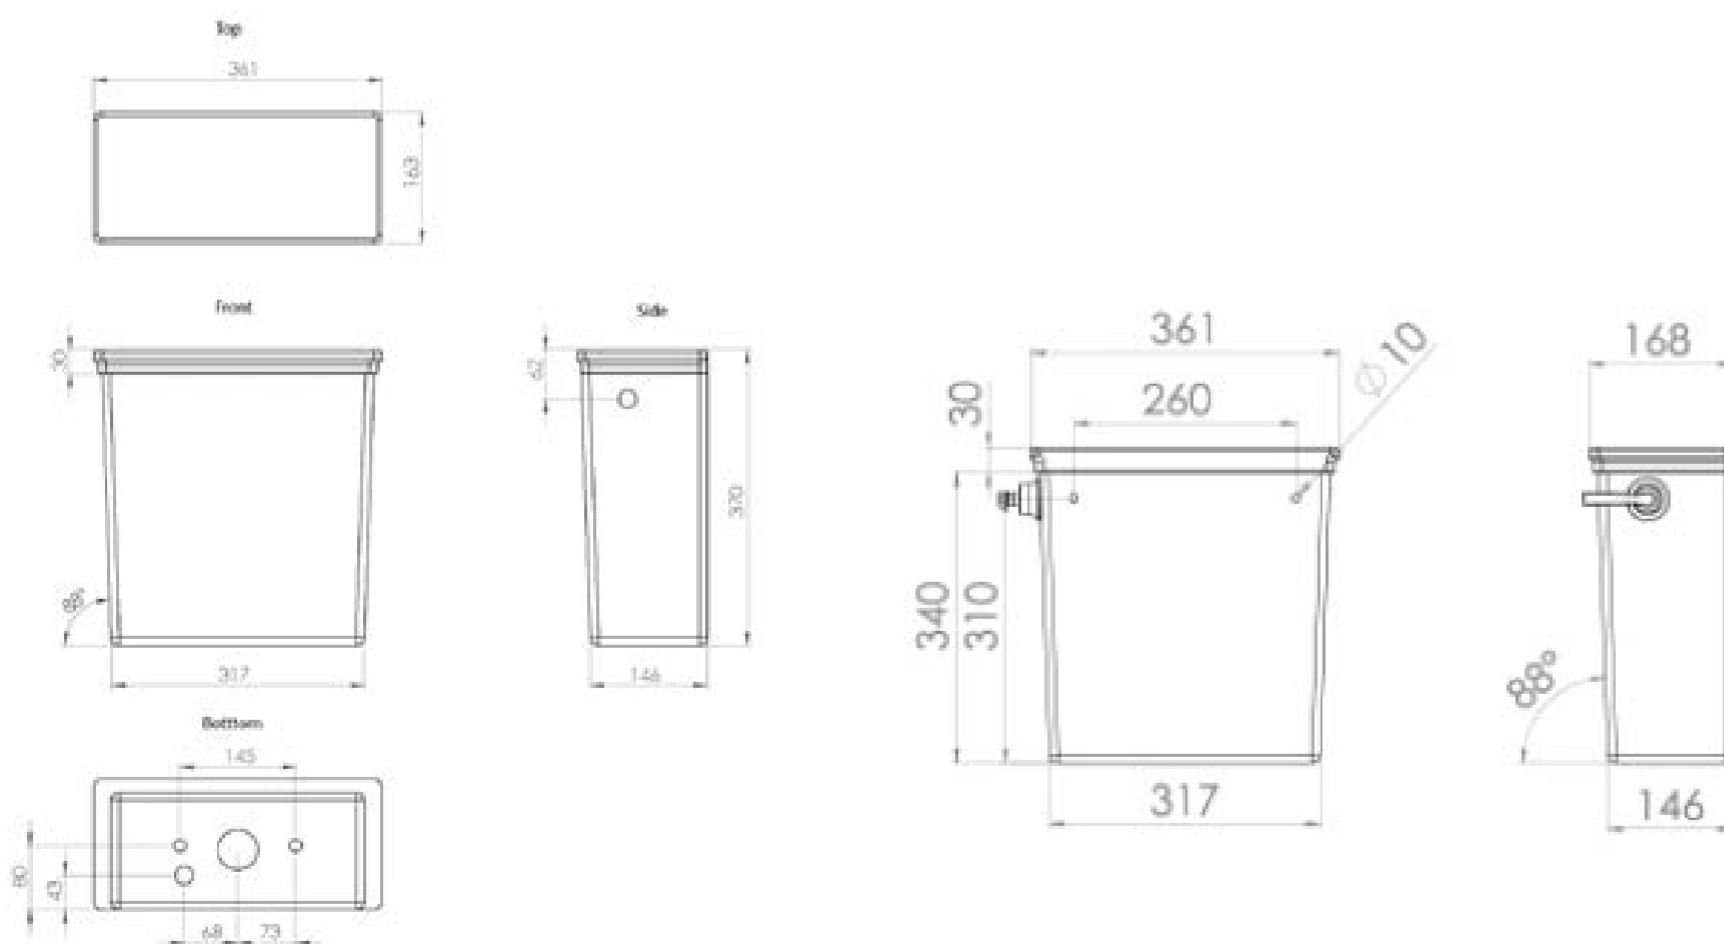

Discovering traditional yet stylish ceramics and furniture can be tough, and this struggle is how the SOFIA collection came to life. We wanted to create traditional sanitaryware that is primarily traditional but has contemporary elements throughout.

This cistern features a traditional flush mechanism in a crisp chrome finish, but the internals are unmistakably modern as they are WRAS approved and feature Air Gap technology, a regulation that ensures that the water flowing through your cistern will not come into contact with water flowing through your mains.

\*Pan sold separately

Compatible pan: SOCC02, SOCC02.L, SOCC02.R
