## DESCRIPTION

FLUSHE 2.0 is our collection of framed and concealed cisterns, flush plates, and flush buttons. They feature Fluidmaster internals which are WRAS approved, giving you peace of mind that they will not contaminate the water.

This FLUSHE 2.0 750mm universal framed concealed cistern has the option of having either a front or top mechanical flush. It is only 75cm high so it can be installed into smaller bathrooms, and is also slim depth at only 16-21cm. It is best suited to work with our wall mounted WCs as the frames provide support.

Pair it with our selection of flush plates within the same FLUSHE 2.0 range.
