Compatible Cistern(s)	HC2036, HC2037, HC2030
Type of Flushing	Rimless technology

Product Code: 66074

DESCRIPTION

UNI is our collection of modern, handle-less furniture and ceramics to allow you to create a contemporary bathroom set up.

The UNI back to wall pan has a sleek design with its rounded base and fully back to wall look to hide pipework. It also has rimless flush technology, meaning there is no obvious rim around the inside of the pan and instead has a clean look. This also prevents the build up of limescale and bacteria which will ensure your pan is hygienic and easy to clean, which is perfect for busy family bathrooms.

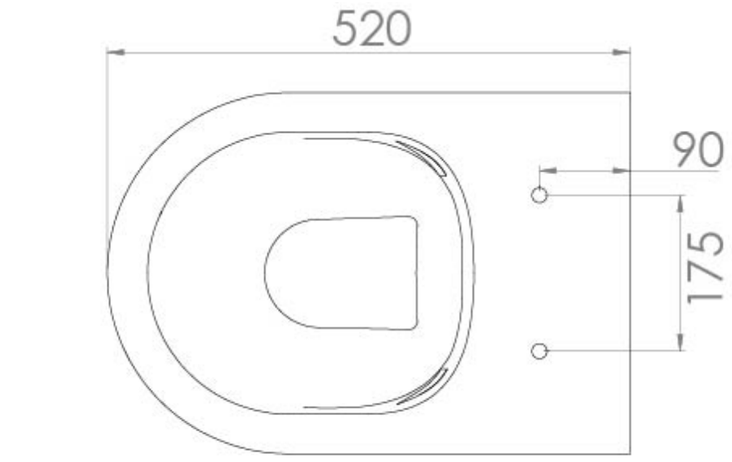

Create a tidy bathroom space and opt for a back to wall pan; you can hide the cistern by having it built into the wall or a WC unit as well as save on floor space.

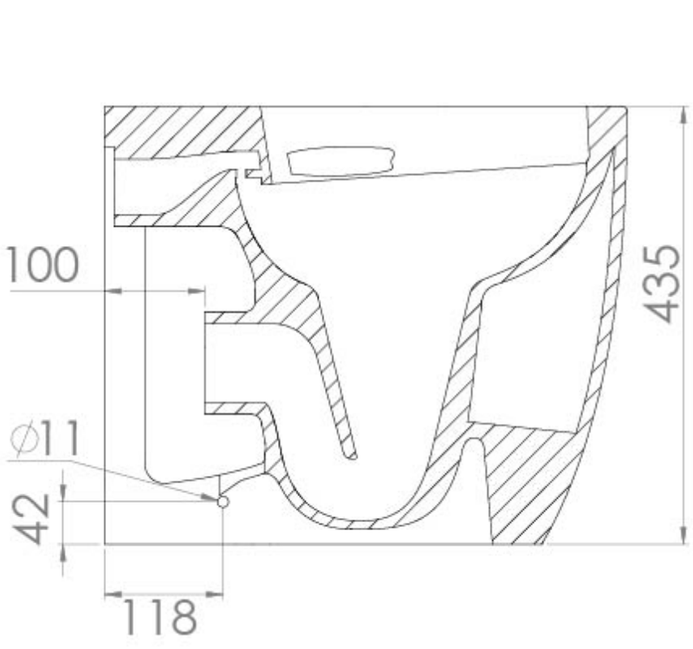

*Seat sold separately
Compatible seats: 66101, 66102

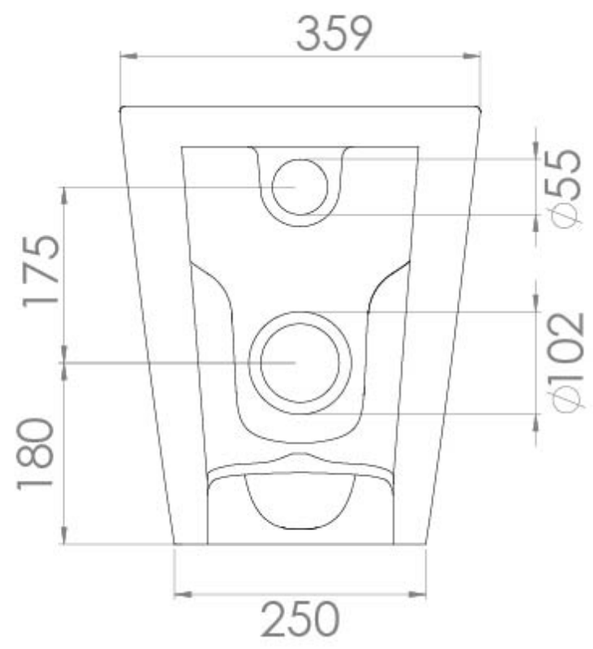

For optimal performance, we recommend pairing back to wall rimless pans with a high-level concealed cistern set at 6/3lt flushing.

See our FLUSHE 2.0 range for compatible WRAS approved concealed cisterns.
