INSTALLATION INSTRUCTIONS

1. Measure the distances (A&B) between fixing holes and mark on the wall, at the intended height.
2. Undo the grub screws and remove the wall brackets from the back of the heated towel rail.
3. Drill holes in the wall, insert the wall plugs and secure the wall brackets using screws provided.
4. Slot the heated towel rail onto the brackets and tighten in the grub screws.
5. Fix the inlet and outlet to the bottom of the heated towel rail in accordance to their instructions.
6. The valve on the back at the top can be used to release the pressure, unscrew when necessary.
