

AFTERCARE INSTRUCTIONS

Excessive exposure to water will deteriorate the furniture. Wipe away any water splashes or condensation after use.

All bathrooms should be well ventilated, if needed, with a suitable extractor fan.

Clean with a soft damp cloth only.

Use a wax free polish if one must be used.

All electrical components are IP44 rated.

Do not allow water to come into contact with the electrical components.

saneux

NOTE: Handle with care! When unpacked, never place upright on a hard surface. Always lay on soft surface.

IMPORTANT

- The fixings supplied are for solid walls. For hollow or stud walls use specialist fixings.
- Before drilling ensure that there are no hidden cables or pipes in the wall.
- This product has special protection against the ingress of moisture and is manufactured to meet IP44 standards. See diagram.

Cabinet Installation.

Measure distance A and B and mark the wall. Note the location of the fixings from the top of the cabinet and take this away from distance A. Allow extra space under the cabinet to suit the height of the tap to be installed.

Drill the required holes and insert the wall plugs. Using the fixings provided install the wall brackets and hang the cabinet on the wall brackets.
